## Mascot Pet Products launches designer collars with essential oil pest control and fragrance.

Englewood, Co – Mascot Pet Products is showcasing their new designer collars with essential oil pest control and fragrance at the 2016 SuperZoo trade show in Las Vegas August 2nd-4th. The collars are designed to have pest control function with a pleasing essential oil aroma and a fashion twist. **Visit booth #12301** in the Rodeo Drive section of the show.

### What's unique about the collars?

Customers can choose various ribbon styles featuring holiday and everyday designs. The many ribbon designs accompany the 12 different essential oil and fragrance scents.

1. Collars should be worn around pet's neck.
2. Adjust for fit and buckle in place. The collar should be worn loosely, usually 2 fingers should be able to fit between and the collar and the animal.
3. Leave 2 to 3 inches for extra adjustment.
4. Cut off and dispose excess length.
5. Under normal conditions, replace when scent fades away.
